Stratton Glass & Windows Ltd

www.StrattonGlassWindows.co.uk

uPVC French, Patio and Bi-fold Doors

Be inspired...

Stratton Glass & Windows has been trading in Norfolk and Suffolk since 1979.

We have outlived more than 4 ten year warranties.
During this time we have used various window and door constructions, which has given us the invaluable opportunity to wean out the weaker profiles that can be susceptible to repeated service calls. We are incredibly proud of our window range due to its durability, quality and style. We hope you like it too.

GET THE LOOK

Our uPVC garden entrance doors all offer a unique look, but also have their practical advantages too. This guide will help you with your decision, but if you have any further questions please call us or visit one of our showrooms in Diss or Long Stratton.

FRENCH DOORS

French doors are by far the most popular and affordable option. Available as both open in or open out, they allow you to open the entire door aperture – just bear in mind that you will need room for the doors to swing.

PATIO DOORS

When compared to bi-fold and French doors, sliding patio doors allow much larger glass areas for optimal views of the garden. Also, because they slide along a track, they are a great space saver, long lasting and safe.

BI-FOLD DOORS

Bi-fold doors offer a grand appearance to any home, allowing you to open up vast areas to the outside. These are great for when friends and family are over for a garden party. Just bear in mind you need the space to stack the doors when open.

Choosing your home improvement company...

Stratton Glass & Windows are a safe and easy option to choose as your home improvement company. We only supply high quality windows and doors, for fair prices. We recommend visiting one of our two showrooms in Diss or Long Stratton to see the quality for yourself.
We have been trading locally since 1979, so you know your guarantee is safe in our hands.

www.strattonglasswindows.co.uk

Our Company Story so Far...

As a local, family run company since 1979, we have always followed the same formula: to only provide good quality products and service, for a fair price. We still follow this simple value today, and believe this foundation is why our customers keep choosing us to improve their homes.

Starting in Long Stratton in 1979, trading from a humble office space and a beat up old van, Nicholas Jones established Stratton Glass and Windows.

1979

In 1990, we moved to our Long Stratton warehouse, where we still trade today.

1990

In 2000, we sucessfully and proudly expanded to a small showroom on Victoria Road in Diss, Norfolk.

2000

In 2005, we moved to our current, purpose-built showroom and warehouse facility on the popular trading estate Hopper Way in Diss, Norfolk. Providing a wide display of products for customers, this move proved itself quickly.

2005

From our humble beginnings in 1979, thanks to our devoted local customers and dedicated and hard working team, we're still trading over **40 years later**!

In 2014, Nicholas Jones entrusted the company to his son, Harry Jones, who proudly runs the family company to this day.

Today

FENSA

GGF

INSTALLsure

Let's get this project started...

We are here to help, and that starts now. Use our checklist below to help you make an informed decision when choosing who to install your new doors and what specification to go for.

How to buy doors check list

1. Are the installers FENSA registered & MTC/NVQ qualified?

Doors with more than 50% glass will need a FENSA certificate to prove they have been fitted to building regulations. As part of this, FENSA now require all installers to be MTC certified. If the company doesn't use MTC qualified installers, the FENSA certificate is invalid.

2. What door best suits the space?

Hinged French doors allow you to open the entire space.
Sliding patio doors give better sight lines and don't take up floor space when opened, but provide less of an opening.
Bi-fold doors are best suited to larger apertures and provide impressive openings up to 6.5m wide.

3. How long has the company been trading and what is the warranty?

Most installers offer 10 year warranties, but some aren't worth the paper they are written on. Choose a company that has **survived at least 20 years** worth of guarateed work. This typically proves the company's competence to carry out and guarantee your installation.

4. Should I choose Aluminium or uPVC?

uPVC has the advantage when it comes to cost and thermal efficiency due to the multi chambered profile and raw material.
Aluminium is a premium product that can provide slimmer frames to increase sight lines. It has a premium, durable but lighter feel so suits bifold and patio doors for a smooth glide.

5. Where is the local branch?

Always shop local. We are based in Diss and Long Stratton, so ideal for servicing Norfolk and Suffolk. We also have engineers all over the county to ensure a prompt response time when it comes to service work. Check out the company's showrooms to ensure you like the products and service in store.

6. What is the aim for your new doors?

Thermal efficiency, noise reduction, security or to enhance your home's wow factor are all elements to consider. Speak to one of our experts who can help guide you towards your goals.

7. Have you checked the reviews?

Our customers matter to us and this is reflected in our reviews. Ensure you check the company's reviews before making a decision.

10 Year Warranty

"We are truly delighted with the friendly, efficient service" Malcolm Middleditch - Google.com

"Can't praise the company or the team highly enough"
Gill Goshorn - Google.com

Local Family Run Company

Stratton Glass & Windows Ltd

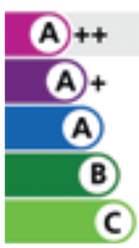

uPVC Hinged French Doors

Available in both **'open in'** and **'open out'** styles, the Stratton hinged French door is an attractive alternative to patio doors. This stunning range comes with the same high specification and colour choices as our window range – just as you'd expect.

Energy Efficient

We install A+ rated double glazing as standard, but for ultimate insulation our French doors can achieve an **A++ rating** when triple glazed.

Wide Choice of Colours

Stand out with a choice of **37 durable colours** inside and out, in a variety of smooth and grained finishes.

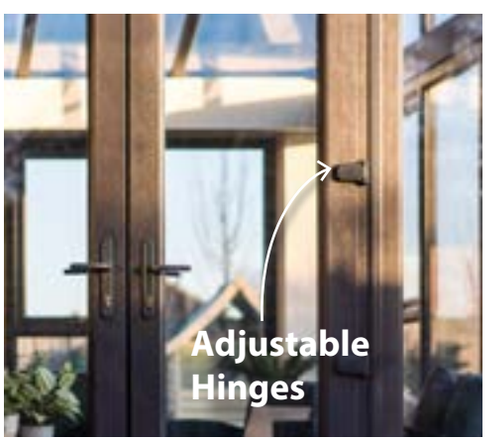

High Security Cylinder

Our uPVC French door now contains the robust 3 star ERA invincible cylinder that **cannot be snapped**. In addition, the 6 hardened high security pins provide ultimate: anti-pick, anti-drill and anti-bump resistance.

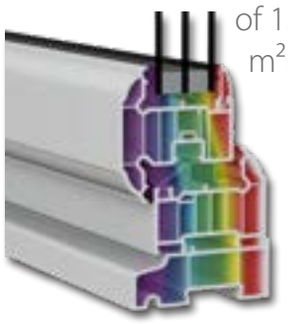

Mobility Threshold

Upgrade to a low aluminium threshold for an easy step in and out of your home.

Double and Triple Glazing

Choose double glazing or upgrade to triple glazing for an impressive U-value of 1.0 W/ m^2K.

High Security Lock

Your home is in safe hands with our 5 point high security locking.
The bi-directional throw of locking features provides a secure anti-jemmy feature.
Shoot-bolts on both doors, top and bottom, spring into action when the handle is lifted for ultimate security.

Stratton Glass & Windows Ltd

uPVC Sliding Patio Doors

Available in a range of colours and designs, the Stratton patio door has **ultra slim frames** to ensure you enjoy the maximum amount of natural light in your home. Its effortless opening mechanism and smooth motion provide a satisfyingly noiseless glide.

Low Thresholds

Upgrade to the **super low** integrated, accessibility threshold for an easy step.

Unrivalled Security

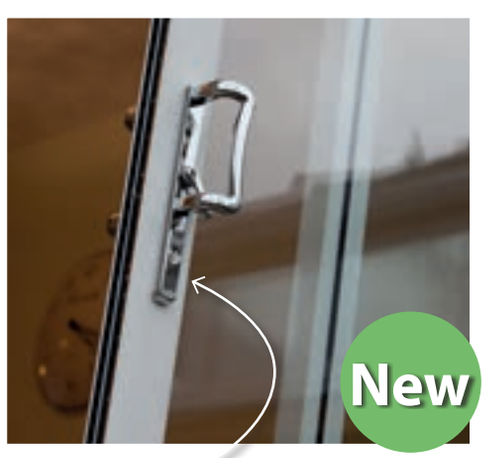

Combined reinforcing and locking provides **ultimate strength and security.**

Quiet and Effortless

Traditionally patio doors use 4 steel wheels – ours use **8 self-lubricating wheels.**

Tailored Handles

The stylish patio plus handle is designed especially for our patio door and suits it perfectly.

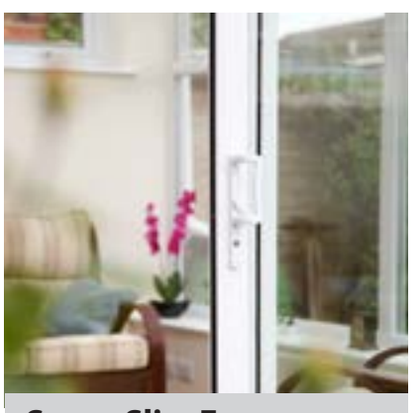

Local
Family Run Company

Space Saving

As the door opens along the frame, it doesn't waste floor space – making patio doors a popular option in between a house and conservatory.

Super Slim Frame

Ultra-slim sight-lines ensure you enjoy the maximum amount of natural light in your home.

Wide Choice of Colours

Choose from **37 durable colours** in smooth and grained finishes. The patio door can match our sculptured window frame and colour.

Long Lasting

Along with security and weather testing, our patio door has been tested to over **28,000 opening sequences** and still counting!

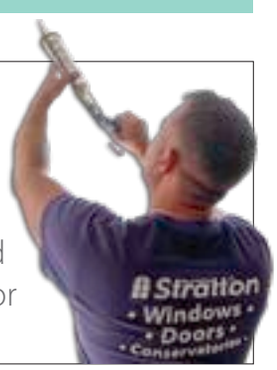

Energy Efficient

Our patented multi chambered frame has unparalleled thermal efficiency. In fact, the patio plus can achieve an A+ rating.

Highly Qualified Installation teams

As registered **FENSA** members, our staff are fully trained to comply with regulations for your peace of mind.

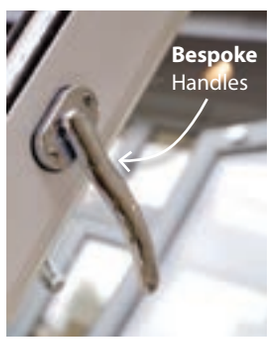

Stratton Glass & Windows Ltd

uPVC Bifold Doors

The Stratton ModLok™ bi-fold door is a modern uPVC system with a wide choice of colours and configurations, along with the added benefit of a patented exo-skeletal aluminium reinforcing system, enabling it to span widths of up to 6m, with as few as 6 sections!

Innovative

It's often the simple things that make a huge difference. Our uPVC bi-folds feature **slim handles** and **folding keys** to avoid the handles and keys making contact with the frame when open.

Colour Matched

Choose from **37 foiled finishes** to match our window ranges – including greys and wood effect finishes!

Protection

Our **10 year warranty** is **insurance backed** and protects all of the uPVC products installed by our qualified team. In the unlikely event of a failure, you can count on us to rectify the problem.

Easy

Quiet and Effortless Glide

The patented roller mechanism is hidden within each door to maintain sleek lines and offer an effortless glide.

Long Lasting

Along with security and weather testing, our uPVC bi-fold door has been tested to over 120,000 opening sequences.

FENSA Clean, Tidy and Professional Team

As registered **FENSA** members, our staff are fully trained to comply with regulations.

Secure - PAS 24 and SBD

Combined reinforcement and multi-point lock provide an unrivalled high security mechanism that is **PAS 24** and **Secure by Design** approved.

Patented Frame

The uPVC bi-fold door matches our sculptured windows and includes a revolutionary **7 chamber frame** and anti-mould bubble gasket.

Double & Triple Glazing

Our uPVC bi-fold door can be fitted with triple glazing, reaching an impressive U-value of 1.0 W/m^{2}K, for a warmer home in winter.

Choose your frame...

Our uPVC frames are designed to work together. Choose from sculpted or chamfered mouldings.
Note: some door systems are only available in sculptured – more details are shown on pages 24-25.

www.strattonglasswindows.co.uk

Frame Moulding Options

Sculptured

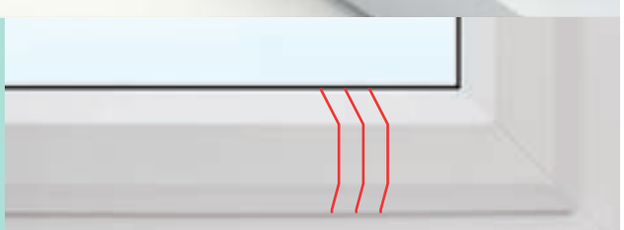

Mimicking traditional timber windows and doors, this authentic rounded design is now our most popular frame moulding.

Chamfered

This bevelled mould offers simple and clean lines. The straight edges also provide an easier surface to clean compared to sculptured moulding.

Stratton Glass & Windows Ltd

A World of Colour...

uPVC windows and doors aren't just available in plain white – with Stratton Glass & Windows there's a whole world of colour waiting for you! Discover our beautiful foiled finishes for coloured windows and doors.

To add colour to your new windows and doors, our uPVC frames can be laminated (foiled) in any of the colours shown below and adjacent, to the external/internal face, or both sides of the frame.

Choose smooth grey or black to mirror a sleek, modern aluminium style, a neutral tone for a cottage / traditional look, or explore woodgrain effects to give an authentic appearance – perfect for the timber alternative Resurgence flush sash window range. The choice is yours!

Add a touch of style...

Choose from internal Georgian bars, mounted astrical bars or leaded design to really enhance the style of your door. We also offer special glazing options, including acoustic and heat reflective glass.

Stratton Glass & Windows Ltd

Decorative Glazing Options

Add character to your frames using leaded or Georgian bar layouts - including grids, diamonds, single horizontal/ vertical bars.
Alternatively, we offer internal blinds that are in between the glass to prevent damage. Choose from manual blinds or fully electric blinds for a real wow-factor!

Local
Family Run Company

Internal Georgian Bar

Internal bars in between the glass are a less costly way to achieve the bar effect, with the added benefit of easy cleaning.

Mounted Astrical Bar

Mounted bars are attached to the glass along with an internal spacer in between the glass to provide an authentic appearance.

Leaded Window

Using self-adhesive lead, we can create traditional patterns, including diamond and square leads.

Internal Blinds

Internal Venetian blinds can be fitted in between the double glazed unit, preventing damage and the need for cleaning.

There's a difference...

www.strattonglasswindows.co.uk

Not every uPVC Door system is the same:

Features	 Stratton Glass & Windows Ltd Eco Energy Frame	 Competitors Typical Trade Frame
Chambers (Front to back)	**Up to 7 Chambers (Front to Back)** Our profile has up to 7 chambers front to back, which is more than double the industry standard. This boosts thermal efficiency and strength.	**3 Chambers (Front to Back)** These profiles have fewer air gaps for insulation and require steel for reinforcing, which causes cold spots.
Lead Free	**Lead Free Frame** Made from eco-friendly, lead free, fully recyclable PVC.	**Leaded Frame** Most PVC window companies still use lead in their frames.
Gasket	**Co-Extruded, Anti-Mould Gasket** Gasket springs back and is attached to the frame to prevent shrinkage.	**"Pushed in" Gasket** This is susceptible to mould and un-sightly shrinkage in the corners.
Origin	**British Engineered and Manufactured** Our profile is proudly engineered and fabricated here in England.	**Engineered and Manufactured Abroad** The majority of frames are extruded and designed abroad.
Energy Rating	**Up to A+40 Rated** Due to its construction, our profile is capable of achieving an A++ rating.	**A or A+ Rated** The majority of windows and doors can only achieve an A rating.
Warranty	**10 Year Warranty** Outliving over four 10 year guarantees, our PVC frames, glass and installation are backed by our 10 year warranty. Our warranty is also insurance backed for peace of mind.	**10 Year Warranty?** Some warranties aren't worth the paper they are written on. Make sure your installer is insurance backed and has traded for more than 20 years.

Providing inspiration to installation then aftercare

Since 1979, our family run company has always followed the same values: treating our customers in a way that we would like to be treated. We keep it simple. Firstly, we provide quotations based on well informed advice; we do not condone old fashioned pushy sales tactics. Secondly, we only supply good quality products for fair prices. Finally, our installations are all backed by our 10 year guarantee.

1.

The Showrooms

Visiting our showrooms allows you to **experience our window and door ranges for yourself**, whilst giving you the opportunity to familiarise yourself with our friendly and knowledgeable staff.

2.

Book a Free Design Visit

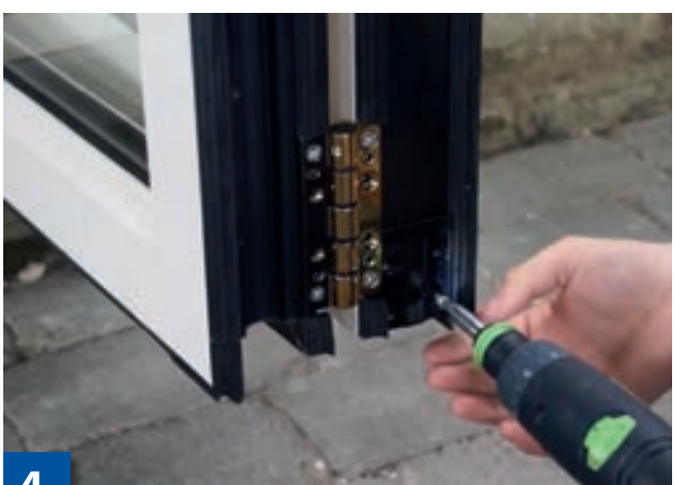

At Stratton, our sales team will help guide you to the most appropriate solution that suits you and your home. We can provide CAD drawings and installation photos to help you with your decision.

3.

Installed by Qualified Staff

For a hassle free installation, as **FENSA registered installers** our teams are **NVQ** or **MTC qualified**. This ensures that they are competent, follow building regulations and health and safety guidelines.

4.

Hassle Free After Care

Our installations are protected by our 10 year, insurance backed guarantee. This means that if a fault occurs within this period, we will repair or re-place them free of charge (subject to our terms).

Stratton Glass & Windows Ltd Est. 1979

Reviews and accreditations

Stratton Glass & windows has been trading for over 40 years. Throughout this time we have improved around 40 thousand homes. We take great pride in our product and service but…don't just take our word for it:

☑ FENSA Registered

Ensures that we are competent contractors and our installations adhere to building regulations.

☑ 10 Year Guarantee

Trading since 1979, we take pride in our 10 year guarantee and customer care.

☑ Trading Standards

As GGF members, we are enrolled into TSI's trading standards approved code.

☑ Trustmark Endorsed

Registered firms gain accreditation following thorough vetting and on-site inspections.

☑ GGF Member

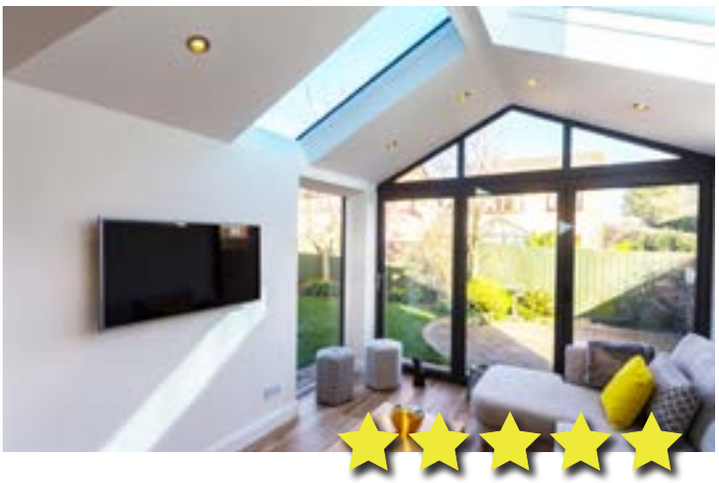

GGF is the industry authority; they promote best practice and safety standards.

☑ Insurance Backed

Our industry leading insurance broker provides you with an insurance backed guarantee.

☑ BBA Approved Roof

This certificate indicates that our conservatory roof will have a life of at least 25 years.

"The work was of the highest quality and all the tradesmen were very professional"
John Marjoram - Google.com

"Competitive price without all the nonsense that other window companies seem to indulge in" Ronandkate - Reviewcentre.com

"Stratton Glass is a family run business which gives excellent value for money"
Roger Kember - Google.com
