Designs

Styles and configurations to suit every home.

Glass & Windows Ltd Stratton

Replacing your front door is one of the most impactful ways to enhance your home's appearance, security, and kerb appeal.
A stunning, well-crafted door is the first thing you see when you return home and the first line of defence in keeping your property safe. Choosing a local, established company like Stratton Glass & Windows Ltd ensures expert guidance, quality installation, and long-term support you can rely on – because your home deserves more than just a door.

Efficiency

Warm, quiet, and built to perform all year round.

Security

Stronger doors, smarter locks, complete peace of mind for your home.

Colours

A wide palette of shades and finishes to choose from.

Glass Options

Stylish designs for added privacy.

Hardware

Hardware crafted for style and durability.

Over 40 Years Continual Trading!

Choosing Your Home Improvement Company...

Stratton Glass & Windows is a safe and reliable choice for your home improvement needs. We supply only high-quality windows and doors at fair, competitive prices. We recommend visiting one of our two showrooms – in Diss or Long Stratton – to see the quality for yourself. Proudly trading locally since 1979, you can trust that your guarantee is secure with us.

Stratton Glass & Windows Ltd

Our Journey: From One Van to Now

As a local, family-run company **since 1979**, we've always stuck to a simple principle: to provide high-quality products and service at a fair price. Over the years, that ethos has guided every step of our journey – from a humble start in Long Stratton to a purpose-built showroom in Diss.

Want to see how we got here? **Follow our company timeline and explore our story so far...**

1979: Starting in 1979, trading from a humble office space and a beat-up old van, Nicholas Jones began our journey.

1990: In 1990, we moved to our Long Stratton warehouse, where we still trade today.

2000: In 2000, we proudly expanded to a small showroom on Victoria Road in Diss, Norfolk.

2005: We moved to our purpose-built showroom and warehouse on Hopper Way in Diss – a move that quickly proved successful.

2025: Over 40 years since our humble beginnings, we're still proudly trading – thanks to our loyal customers and hardworking team. Since 2014, the company has been run by Nicholas's son, Harry, continuing the family values of selling high-quality, innovative, British-manufactured products at fair and honest prices.

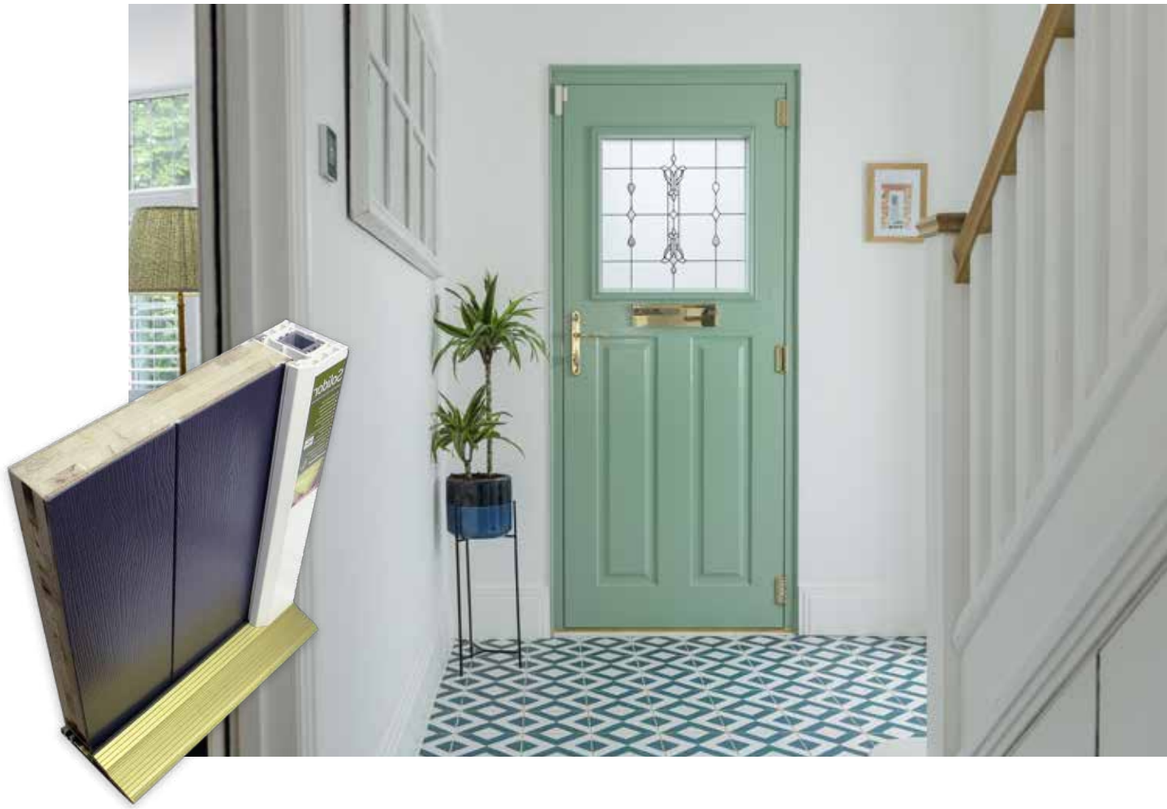

Stratton Glass & Windows Ltd
Est. Since 1979

Solid Timber Core –
Engineered for Security

The Solidor Collection features solid timber-core composite doors, offering greater **strength and security** than foam-filled alternatives. Each door is fabricated in the UK with a solid timber core for quality you can feel, with a tough, durable skin that outlasts standard GRP doors. Every Solidor comes with a **10 year warranty** for lasting peace of mind.

Solidor®

Ultimate Lock Security

This 3-star key cylinder is anti-bump, snap, drill, and pick. Proven to outperform competitors, it keeps your door secure when it matters most and is fitted as standard on every Solidor door.

Multipoint Locking

The Avantis multipoint lock secures your door at multiple points, with the UK's largest chamfered hooks for superior strength. Fitted as standard on every Solidor door, it delivers robust, reliable security.

Strength You Can Feel

At 44mm thick, the solid timber core gives your door a reassuring weight, far superior strength, enhanced durability, and better security than foam-filled alternatives. Solid through and through.

Built for Comfort –
Warm, Quiet, and Effortless

Designed and built in the UK, every Solidor door combines a 44mm solid timber core and precision sealing to keep your home warmer and quieter. With a durable, low-maintenance finish, it delivers lasting comfort without the need for painting or upkeep.

Style – Suited to You

Our Solidor range offers a wide range of exclusive designs, furniture, colours, and glass. Whether traditional, classic, or contemporary, there's a style to suit your home.

British Made

Every Solidor door is crafted in the UK using premium materials and expert workmanship, delivering lasting quality, strength, and style.

Warmer and Quieter

With a 44mm solid timber core and precision sealing, every Solidor door provides excellent insulation with U-values from 1.4 W/m^{2}K. The dense core also reduces external noise, keeping your home warmer, quieter, and more comfortable.

Low Maintenance, Durable Coating

Every Solidor door features highly durable plastic edge banding and a 2mm scratch-resistant thermoplastic skin, unlike painted GRP doors which can chip or fade. This means you don't have to worry about painting or varnishing your door again.

Professional Installation – Trusted Locally Since 1979.

For **over four decades**, our local family-run business has stayed true to the same core values: treating customers the way we'd like to be treated.

We keep things simple. First, we offer clear, honest quotations based on well-informed advice – never with pushy sales tactics. Second, we only supply high-quality products at fair prices. And finally, all our installations are carried out professionally and backed by our 10 year guarantee.

FENSA Approved Members

Confirms we are competent window and door installers, working to current Building Regulations.

5 Star Reviews

Our customers rate us highly because we genuinely care – delivering quality products, respectful service, and installations done properly.

A Warranty You Can Rely On

With over four decades of trading, you can rely on our 10 year guarantee and customer care.

Insurance Backed

Provides insurance-backed guarantees to protect your warranty if we ever stop trading.

TSI Approved

As GGF members, we are enrolled into TSI, recognised by the Trading Standards Institute for fair, transparent business practices.

"★★★★★

Perfect from start to finish

We had a door and five windows replaced in two days with an amazing finish and minimal mess. Our home has been transformed. Highly recommended!

Qualified Tradesman

All our installers are **NVQ** or **MTC qualified** and we are FENSA-registered, ensuring your installation meets building regulations.

Hassle Free After Care

We're here for the long run. Whether you need advice, support, or a small adjustment down the line, we're happy to help.

★★★★★ **"Very happy with our new front door! Had lots of compliments on the colour. Would happily order from here again."** Kinley70 - Reviewcentre.com

Traditional Range –

Elegant Design, Built to Last

The Traditional Collection brings classic door designs into the modern era. Each style is perfectly suited to both period and contemporary homes, combining timeless aesthetics with the strength, security, and performance expected from every Solidor door.

The Conway

The Conway is a highly versatile composite door solution.

The Conway is a versatile design available with solid panels, a single glazed arch, or three glazed sections. Choose from a wide range of decorative glass designs, with square or quad glazing available in grey, blue, black, or red to suit your home's style.

Achieve an Authentic Victorian Look with the Ludlow.

With simple clean lines, the Ludlow has the power to create either a modern or a traditional entrance for your home. Available as a solid door for added privacy, or with two glazed panels, the Ludlow combines classic Victorian design with modern materials. Either option will create a polished and sophisticated entry.

Brighten Your Entrance

Add glazed side panels to your Ludlow door to fill your hallway with natural light and create a greater sense of space. They enhance your home's entrance while maintaining its classic style.

Stable, French and Arched Doors

From classic stable doors to elegant French doors and striking arched frames, Solidor doors are as flexible as they are stylish. Each option combines the same high levels of security, insulation, and craftsmanship found across our entire range.

Stable Doors

Bring warmth and charm to your home with a traditional stable door design – perfect for keeping pets safely in (or out, if they're being critters). Ideal for both front and back entrances, they combine classic cottage style with modern insulation, robust locking, and everyday practicality.

Arched Top Doors

Create a distinctive entrance with an arched composite door. Whether standard or templated, we can craft most designs in a wide range of Solidor colours and finishes.

French Doors

Add light, space, and style with composite French doors. Available as inward or outward opening, they offer the same strength, security, and performance as our single doors – a timeless feature that connects your home and garden beautifully.

Colour Range

Enhance your Solidor door with a dash of colour or a luxurious woodgrain effect and create something truly individual.

Unlike other composite doors, Solidor is coated in uPVC so the skin is the same colour all the way through. This makes Solidor doors much more durable compared with glass reinforced plastic composites.

Side Panel Options

We offer two styles of side panels: fully glazed for a brighter entrance, or composite side panels for added presence and privacy. Composite panels are effectively half a door, giving you enhanced insulation and design options, which also makes them a higher-value choice.

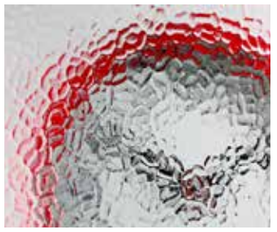

Privacy Glass

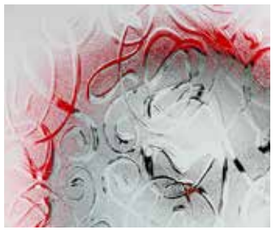

Our patterned glass options offer both style and discretion. We supply Pilkington's extensive range of 20 original designs – from classic to contemporary – each providing a different privacy level (from 1 to 5) to suit your needs and personal taste.

Frame Finishes

Sculptured

Feature a decorative, curved profile for a softer more traditional look.

Chamfered

Feature clean, straight lines for a modern, easy-clean, streamlined finish.

Lock Types

Lever Lock

A traditional lock where lifting the handle engages the hooks and deadbolt. You then turn the key to secure the door. An optional split spindle can be specified to prevent the outside handle from operating the latch – meaning you'll need a key to enter from outside, even though the door isn't fully locked.

Slam Lock

A modern "slam lock" system. Simply closing the door activates the locking points automatically. Ideal for contemporary furniture and pull-handles, but be mindful – if you shut the door without your key, you'll be locked out.

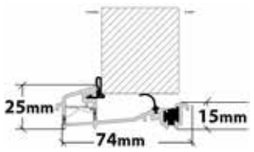

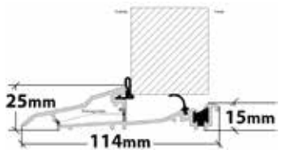

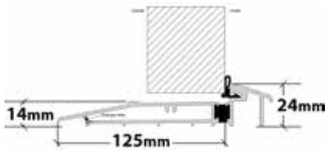

Heritage Lock

Works exactly like the AV4 automatic lock, but with a raised key position to replicate the look and feel of a traditional Victorian-style latch. Perfect for period properties where authentic detailing matters.

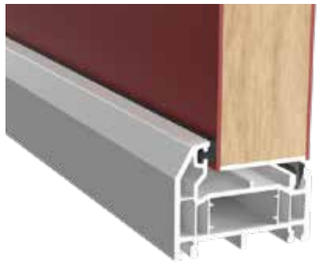

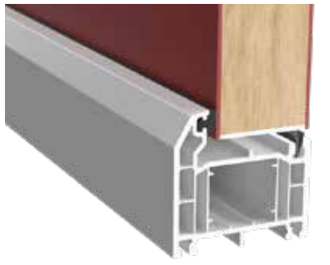

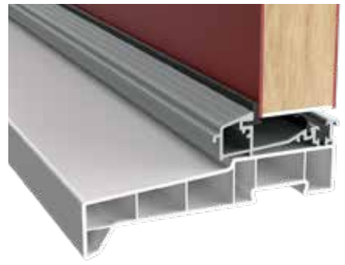

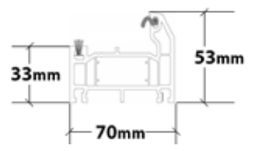

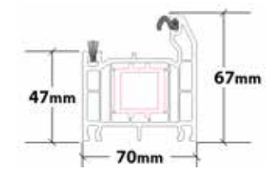

Aluminium Thresholds

Aluminium thresholds are lower and more robust, offering easy access and long-lasting durability. They're ideal where a minimal step is preferred.
